SUMMARY

I am a student at Bina Nusantara University majoring in computer science. I have a strong desire to learn about technology and am quite interested in design. I have experience designing prototypes and sketches for websites. I am also capable of creating website layouts (front end), building systems and features (back end), working well with teams, collaborating effectively, and actively contributing.

EDUCATION

BINA NUSANTARA UNIVERSITY (2023 - sekarang)

Computer Sciences – 3.13

PROJECTS

MUSIC WEBSITE PROJECT (WILIFY)– Jakarta, Indonesia

Frontend developer and ui/ux designer (February 9 – June 6, 2024)

- Designing the UI/UX of a music website with a focus on user experience (user-friendly and visually appealing).
- Implementing designs into responsive website displays using HTML, CSS, and JavaScript.
- Developing interface components such as the homepage, playlist page, and navigation.

GUESSING GAME (CHARGUSESSR) – Jakarta, Indonesia

Full stack developer (October 5, 2024 – December 31, 2024)

- Designing a website prototype using Figma as a reference for design and system flow.
- Developing logic and backend systems using Python Flask.
- Managing a JSON-based database for storing and organizing character data.
- Integrating frontend and backend so that the system runs dynamically.
- Building website interface displays using HTML, CSS, and JavaScript.

Market Place Website (GETTING BY) – Jakarta, Indonesia

Frontend developer and ui/ux designer (February 9 – June 6, 2024)

- Designing a marketplace website prototype using Figma as the basis for structure and user flow.
- Designing a modern and user-friendly UI/UX according to the needs of the e-commerce platform.

- Implementing the design into a responsive website display using HTML, CSS, Bootstrap, and Tailwind CSS.
- Developing interface components such as the homepage, product catalog, and navigation.

VOLUNTEER EXPERIENCE

Volunteer Math Teacher for Elementary School - Binus Kijang, Jakarta, Indonesia

Volunteer Teacher (September 25, 2025 – October 23, 2025)

- Serve as a math teacher for third-grade elementary school students.
- Deliver basic math material using teaching methods that are easy for children to understand.
- Help students improve their understanding of concepts and calculation skills.
- Create an interactive and conducive learning environment.

VOLUNTEER RUMPUN DAY - Al Amin Grand Mosque, Jakarta, Indonesia

Volunteer (September 22 2025 – September 24 2025)

- Participate in social service activities such as cleaning places of worship.
- Join a volunteer team assigned to one of five places of worship: mosque, church, temple, monastery, and shrine.
- Assigned to the mosque location, perform cleaning and tidying activities in the worship area.
- Work together with the team to ensure activities run smoothly and effectively.
- Support the values of tolerance, social awareness, and cross-community cooperation.

ORGANIZATIONAL EXPERIENCE

Binusian Study Learning Community (BSLC) – Jakarta, Indonesia

Member (August 2023 – February 2024)

- Actively participate in learning sessions and discussions facilitated by the instructor.
- Listen to and understand the academic material presented during the activity.
- Provide additional material and sample questions from the instructor to help other members understand (with the instructor's permission).
- Participate in collaborative learning activities and share knowledge among members.

MT Al-khawarizmi – Jakarta, Indonesia

Spiritual Staff of the Ikhwan (September 11, 2025 - present)

- Performing the role of General Syiar, managing religious activities such as the call to prayer and MCing Friday prayers.
- Serving as the PIC for Friday prayers, including coordinating and reminding the khatib of the activity schedule.

- Managing administrative activities, including recording attendance and payment transaction records for Friday Prayer officers.
- Coordinating with SSI (campus cleaning staff) for activity preparations and arranging payments.

CERTIFICATION

Intro to Software Engineering – Coding Camp (RevoU) - Nov 2025

- Learned software engineering fundamentals, development lifecycle, and basic web technologies

SKILLS

Technical Skills

- Frontend Development (HTML, CSS, JavaScript, Bootstrap, Tailwind CSS)
- mobile app development (flutter)
- Backend Development (Python (Flask), Laravel)
- Database & Data Management (SQL, JSON, Firebase)
- UI/UX & Design Tools (Figma, Canva)

Other Skills

- Video Editing (CapCut)
- English (Basic / Reading & Writing)
